DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species "c" (Figures 7-10) in the reply filed on 05 August 2005 is acknowledged.
2. Claims 1-9, 18, 19 and 21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 05 August 2005.

Claim Rejections - 35 USC §§ 102 and 103

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior

Art Unit: 3711

art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claims 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 5,762,403 (Robinson).

Regarding claims 10 and 11, Figure 2 shows the recited aluminum elongated body 10 with a closed hollow cross-sectional configuration 13 and an open hollow cross-sectional configuration 12 capable of receiving an elongate element 17.

6. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Robinson as applied above.

Regarding claim 12, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make the Robinson body from plastic, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice.

Allowable Subject Matter

7. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 14-17 and 20 are allowed.

Art Unit: 3711
